

Virtual Reality Endoscopy Course

Who should apply: FY1, FY2, CT1 and CT2 interested in a career in Gastroenterology and/or GI surgery

Course objective: learn basic skills necessary to perform upper and lower GI endoscopy

Course details: this curriculum is divided in 3 modules:

- Psychomotor skills (hand-eye coordination tasks)
- Upper endoscopy
- Lower endoscopy

Each module includes (1) an induction course, (2) free access to the simulator for participants to practice, in their own time, till able to meet requested criteria (maximum 60 days) and (3) a final assessment. A certificate will be awarded on completion of each module.

Cost: cheque payable to “Royal Free Charity Fund 131”

- Psychomotor skills module: £150.00 (compulsory before other modules)
- Upper Endoscopy module: £130.00
- Lower Endoscopy module: £130.00

When: there is no predefined date as the induction course will take place on request
